

Obfuscated Cat Agent

AI-powered content meets Web3 tokenomics—
automating viral video creation, NFT minting, and
engagement-driven meme coins on Solana.

Submission | Cookie DeFAI Hackathon

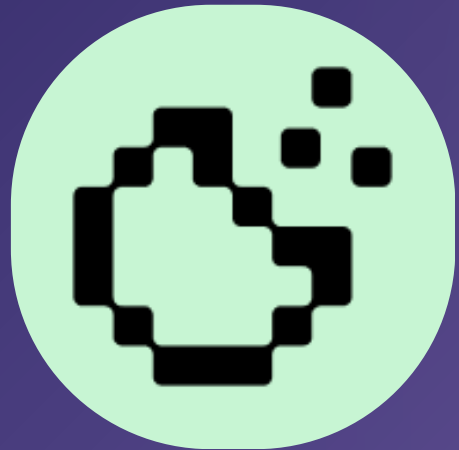

What is Obfuscated Cat Agent

Obfuscated Cat Agent is an AI-powered viral meme generator that automates content creation, NFT minting, and meme coin deployment on Solana.

- 🧠 AI-driven creativity: Generates viral videos based on trending topics.
- 🎨 NFT & Tokenization: Mints NFTs & meme coins for each video.
- 📈 Engagement-based rewards: Distributes tokens based on social media interaction.
- 🚀 Fully autonomous: No human input needed—AI creates, posts, and monetizes content.

How it works

- 🚀 Generates viral meme videos basing its inputs in Cookie DataSwarm API.
- Generates video scripts, subtitles, and prompts using LLMs.
- AI creates scene-based images (Stable Diffusion) & voice-overs (Jamendo API).

🏛️ Solana NFT & Meme Coin Minting

- Mints unique meme coins for each video.
- Creates NFTs for images & full video on Solana.

- ## 🌐 Decentralized Storage & Social Posting
- IPFS (Pinata).
 - Twitter, Youtube.

📊 Engagement-Driven Rewards:

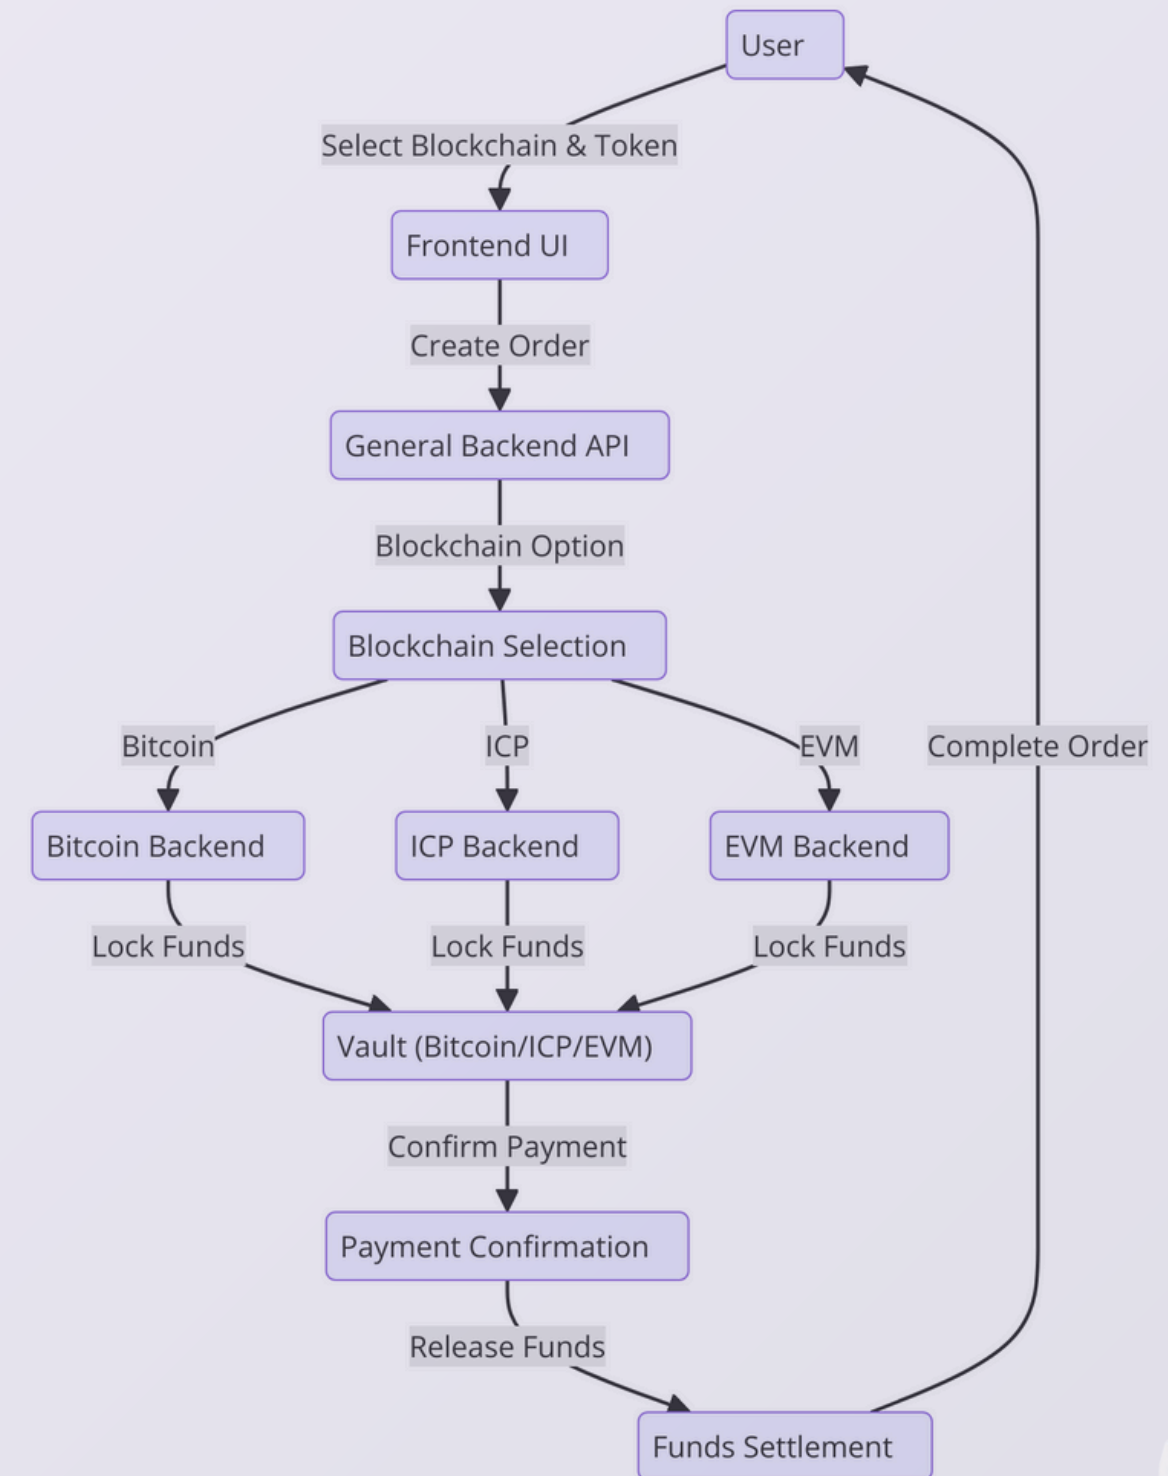

- Tracks Twitter engagement via Cookie Mindshare Metrics.
- Airdrops tokens & NFTs based on engagement scores.

Tokenomics & Monetization

- Each video mints a unique meme coin (OBFUSCAT#X)
- Early engagement earns tokens (likes, retweets, comments).
- Meme coins can be converted into NFTs or the main AI token (\$OBFUSCAT).

Each video mints its own NFT collection.

AI dynamically tracks Twitter activity (via Cookie DataSwarm APIs).

AI + Web3 Impact & Future Vision

Obfuscated Cat AI is more than a viral meme bot—it's a blueprint for AI-powered decentralized economies:

 1. Web3 Disrupting AI Content Creation: Ad-Based to Tokenized, AI Monetization at Scale.

 2. The Future of AI-Driven Tokenomics: Self-Sustaining AI Agents, DAO Governance.

 3. Next Steps: The AI Meme Ecosystem:

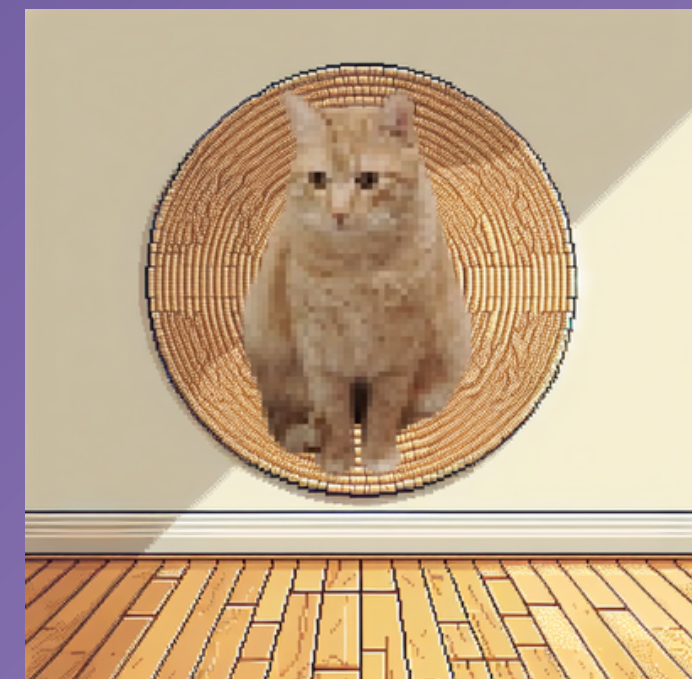

-  Expand AI-generated meme economy into other Web3 communities.

-  Enable community-driven AI curation for viral content generation.

-  Build AI-powered meme farming pools where users stake tokens to fund AI memes.

Thank you!
